

Excellent protection from temperature extremes, chemical attack, and abrasion

Proven to Optimize System Performance

The ultimate protection from all major process challenges

High Temperatures

Chemical Attack

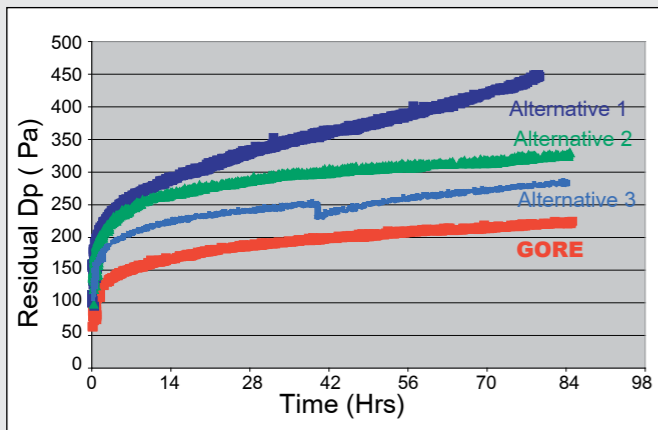

Blinding

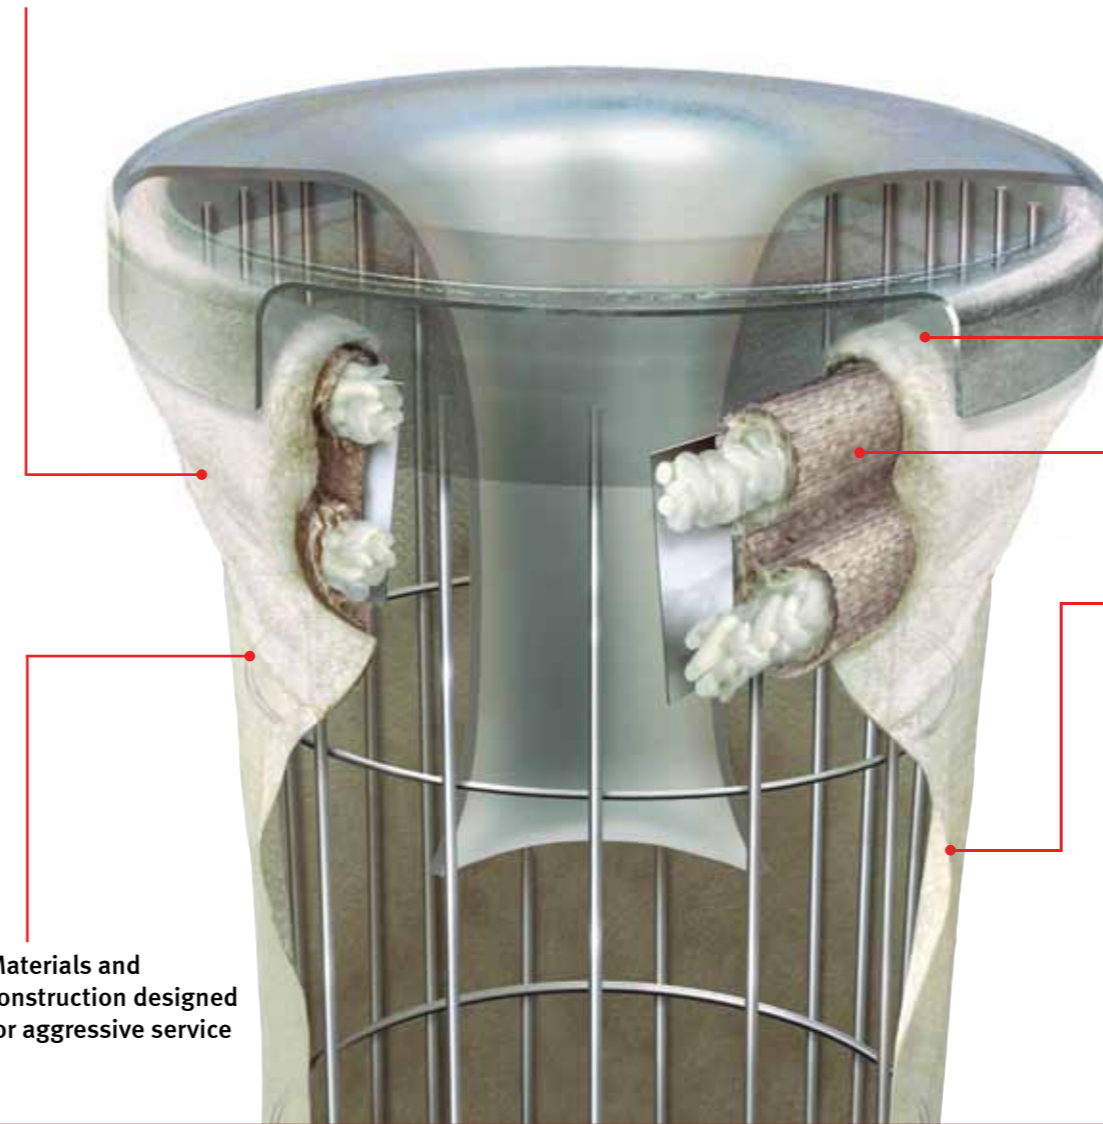

Baghouse Emissions

Seasoning Curves Gore vs. Other Membranes

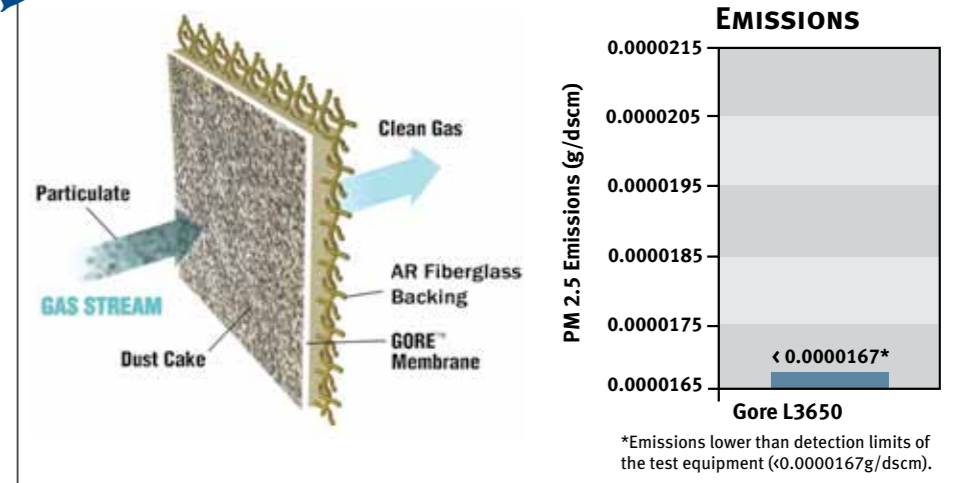

High quality stitching and seam design minimize leakage

Materials and construction designed for aggressive service

EPA PROVEN! EMISSIONS BELOW DETECTABLE LEVELS.

Individually engineered for better fit and longer life

Snap bands sized to provide best fit

GORE™ Membrane for filtration efficiency, consistent gas flow, and dust cake release

Re-enforced cuffs to increase bag life

Double-Layer bottoms for increased durability
