

# Excellent protection from temperature extremes, sparks, and chemical attack

Proven to Optimize System Performance

The ultimate protection from all major process challenges including:

Spark Damage

Chemical Attack

Blinding

High Temperatures

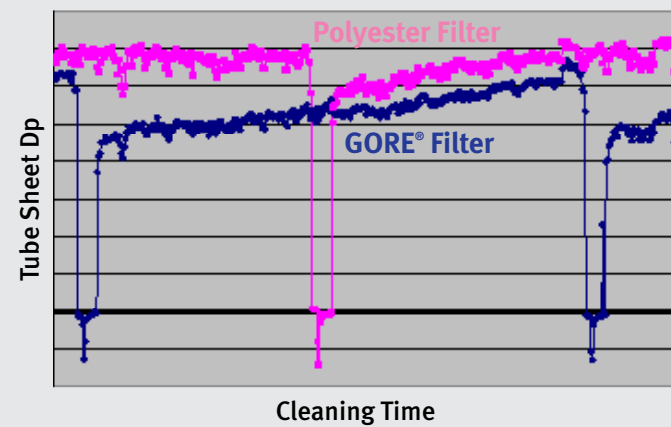

Baghouse Emissions

Fugitive Emissions

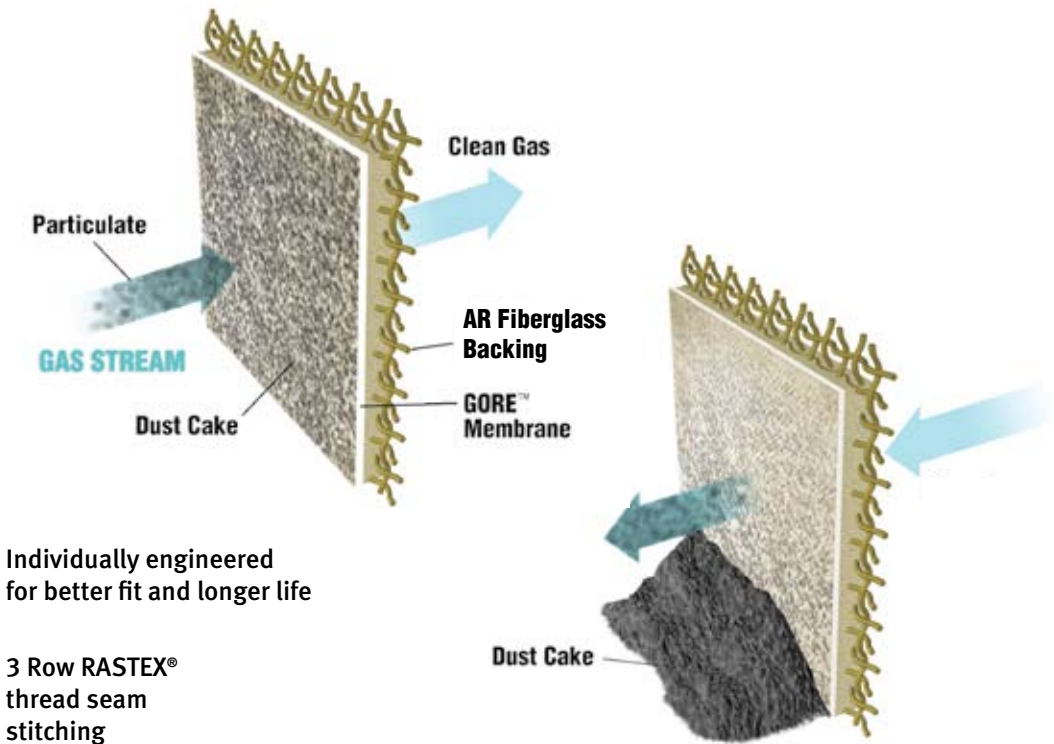

GORE® Filter Bag vs Conventional Filter Bag

High durability, high efficiency GORE membrane laminates

Materials and construction designed for aggressive service

Individually engineered for better fit and longer life

3 Row RASTEX® thread seam stitching

Triple stitched RASTEX® thread prevents ring movement

Abrasion resistant GORE™ membrane fabric cuff
